

Overview of School Viewer Website

Map Components:

1. **Map Toggle:** To switch between Standard View, and Imagery use this control. By default the map is in Standard View.
2. **What would you like to view?:** This is used to turn the different school maps on and off. The radio button next to each option indicates which map is turned on. The *Elementary Schools* map is on by default.
3. **Map Navigation:** This is used to zoom in & out as well as to pan in any direction on the map. If your mouse has a scroll wheel this will also zoom in and out. Also, if you click on the map screen and drag the mouse it will pan the map.
4. **Design Printable Map**
Use this to design a printable map. Users have the option to add a map title as well as choose between a portrait or landscape layout.
5. **Help**
By clicking this button the help document will be launched in a separate browser window.

6. **What would you like to do?:** Use this dropdown to choose how you would like to use the site. The options include "Enter an Address to find school zones", "Click on the map to identify school zones.", "Zoom to a school boundary (prior to parcels)", "Find a charter school.", and "Find a Magnet school"

How to find what zones an address falls within:

What would you like to do?
 Enter an address to find school zones. ▼

Enter Address Information

Address: 75 Calhoun St
 City: Charleston
